WHAT IS MUSICAL THEATRE?

Musical Theatre is a form of theatrical performance that combines songs, spoken dialogue, acting, and dance. The story and emotional content of a musical are communicated through the words, music, movement and technical aspects of the entertainment as an integrated whole. Although musical theatre overlaps with other theatrical forms like singing and dance, it may be distinguished by the equal importance given to the music as compared with the dialogue, movement and other elements. Today, musical theatre stage works have generally been called, simply, musicals.

Our musical theatre program consists of students learning and training in all the necessary components in order to perform a musical production at the end of a semester. A performance on stage opens the door to exploring your individual talent.
